PROFESSIONAL SUMMARY

Engineer with hands-on experience across full-stack development, applied machine learning, and generative AI – from production-deployed web applications to predictive models and LLM-integrated systems. Proficient in Python and JavaScript, with expertise spanning ML techniques, GenAI tooling, and cloud-adjacent technologies. Shipped CyberPulse, a role-based internal portal live in production at CyberTech Systems, alongside ML/GenAI projects spanning sports science, education analytics, and cybersecurity. Co-authored two research papers, including one published in Springer Nature proceedings and presented at SoCTA 2025, NIT Jalandhar. Comfortable owning work end-to-end – data pipelines, backend architecture, frontend delivery, and deployment – within Agile teams.

SKILLS

Machine Learning: Scikit-learn, XGBoost, Random Forest, Gradient Boosting, Logistic Regression, Stacking Classifier, SMOTE, PCA, SHAP.
Generative AI & Tools: LangChain, Groq, Google Gemini API, Agent Orchestration, API Integration, Streamlit.
Web Development: Node.js, Express.js, React.js, EJS, Bootstrap 5, JWT Authentication, RBAC, Postman, Figma.
Programming: Python, JavaScript, T-SQL.
Cloud & DevOps: AWS, Git, n8n.
Databases: MySQL, MongoDB, Microsoft SQL Server.
Data Engineering: ETL Pipelines (Pandas/NumPy), Data Preprocessing.
Visualization: Power BI, Matplotlib, Seaborn, Plotly.

WORK EXPERIENCE

CyberTech Systems and Software Limited, Web Developer Intern 01/2026 – 04/2026 | Mumbai, India
• Collaborated in an Agile team to design and build CyberPulse, a secure full-stack internal portal, from initial architecture through internal handoff.
• Owned backend development – architecture and testing – ensuring scalability and reliability for cross-departmental internal use.
• Translated access-control and audit requirements into a secure, role-based system used for daily internal operations.

LaundryGridz, Web Developer/UI/UX Intern 06/2025 – 08/2025 | Mumbai, India
• Built a responsive multi-screen web app prototype for a laundry startup using HTML, CSS, JavaScript, and Figma, improving UI flow across 8+ screens.
• Collaborated in Agile sprints to design and refine core features – booking flow, service selection, and order tracking.
• Delivered front-end component fixes, enhancing cross-device compatibility and overall user experience.

PROJECTS

GenAI Interview Prep Platform, Role: Full-Stack Dev | Env: VS Code | Lang: JavaScript (Node.js, React) 06/2026 – 07/2026
• Full-stack MERN app using Google's Gemini API to turn a resume and job description into a personalized interview prep report – technical/behavioral questions, skill gaps, and a day-by-day study plan – with JWT auth and exportable tailored resume PDFs.

Multi-Agent System, Role: Design/Dev | Env: VS Code | Lang: Python. 05/2026 – 05/2026
• Autonomous 4-stage AI research pipeline using LangChain, Groq (LLaMA 3.3 70B), Tavily, and Streamlit – agents search, scrape, report, and self-evaluate, cutting manual research effort significantly.

CyberPulse (CyberTech Internal App) 01/2026 – 04/2026
Role: Design/Dev | Env: VS Code · SSMS · Git | Lang: JavaScript · T-SQL · HTML · CSS.
• Built CyberPulse, a role-based internal portal, using Node.js, Express.js, EJS, Bootstrap 5, and SQL Server – implementing email-based authentication, RBAC, audit logging, HR CRUD modules, and SVG-based Quality Insights dashboards.

Dropout Prediction Model, Role: Design/Dev | Env: Google Colab | Lang: Python (Scikit-learn, Pandas). 09/2025 – 10/2025
• Ensemble ML system (Logistic Regression, Random Forest, Gradient Boosting) on JEE dataset achieving 92% F1-score in student dropout forecasting with feature importance visualizations.

Early Athlete Injury Prediction, Role: Design/Dev | Env: Google Colab | Lang: Python (XGBoost, SHAP). 08/2025 – 10/2025
• Built an ACL injury prediction model achieving 91% accuracy with SHAP-based explainability and an interactive prediction UI – published in Springer Nature proceedings, SoCTA 2025, NIT Jalandhar.

EDUCATION

B.Tech Computer Engineering, NMIMS University. 08/2021 – 09/2026 | Navi Mumbai, India

Higher Secondary Certificate (XII), Jai Hind College. 06/2019 – 03/2021 | Mumbai, India
• Maharashtra State Board | Percentage: 87.33%.

Secondary School Certificate (X), St. Xavier's High School, Fort. 06/2008 – 03/2019 | Mumbai, India
• Maharashtra State Board | Percentage: 82.60%.
